ABMI has key strategic relationships with leading manufacturers to provide a complete portfolio of scientific equipment, chemicals and supplies for research, safety and healthcare. We resell and distribute products ranging from gas and liquid chromatography to infrared thermal imaging cameras and blood analyzers. We also offer lab supplies and equipment through strategic distribution partnerships. We are pleased to be able to offer many of these products on our GSA Schedule 66

(GS-07F-0092W) and TXMAS (11-66020).

ABMI partners with Grainger to help customers save time and money by providing the products they need to keep their facilities up and running. While each customer has a unique facility to operate and a different problem to solve, our customers all share the same requirement: when they need an MRO product, they need it RIGHT NOW. We understand the pressures and importance in maintaining a facility and work hard to get our customers the right product at the right time. We are pleased to offer these products on WSCA (7-11-51-02) Facilities MRO.

ABMI maintains a long-standing relation with Snap-on because they are a leading global innovator, manufacturer and marketer of tools, equipment, diagnostics, repair information and systems solutions for professional users performing critical tasks. We also partner with The J.H. Williams Tool Group which continues the legacy of Snap-on, the inventor of the interchangeable socket wrench and a master at creating tools that maximize worker productivity and profitability. Serious tools and legendary brands.

ABMI partners with Garratt-Callahan Company to provide custom water treatment solutions based on Garratt-Callahan's century of experience and commitment to customer satisfaction. We are able to solve water quality problems swiftly and effectively. We help facilities protect their investment in equipment and facilities while controlling energy and maintenance costs by preventing problems before they occur. We are pleased to offer Garratt-Callahan products on our GSA Schedule 73 (GS-07F-0099W).

Water Treatment Expertise Since 1904

Experience

We understand the rules and regulations of doing business in the public sector. We are responsive and responsible and have exemplary past performance. We provide innovative government channel programs to deliver products and services in five divisions: Scientific, Maintenance, Repair and Operations (MRO), Tools, Transportation, and Water Treatment Chemicals.

Customer Service

When you call – we answer the phone. We respond in a timely manner, deliver on the promise and remedy problems immediately. By following these principles we have found it easy to comply with all the rules and regulations for doing business in the public sector, build personal relationships with the agencies that govern us and operate in full disclosure which makes it easy for our customers and our partners to do business with us.

Contract Compliance

We have strict internal controls and checks and balances that promote transactional success at a high level. Federal, state and local governments rely on ABMI to provide products and services through contract vehicles they prefer including GSA Schedules, WSCA Contracts and other IDIQ vehicles.
